

6" UTILITY PANEL

Gutterglove[®]
Gutter Guard

Utility T-Panel

The utility panel system designed to be installed anywhere extra coverage is needed such as valleys, chimneys and other areas prone to ice buildup. The system is designed to eliminate ice and snow, keeping your home safer and reducing the risk of winter damage. This panel is 6" wide and is guaranteed to heat the entire length of the panel. The utility panel can be custom cut to fit the length any of your roof's nooks & crannies.
